Dear Praying Friends,

We are happy to report that we have received the necessary funds to pay off all of our outstanding stateside medical debt. This is a huge answer to prayer.

Marianne is presently recovering from right total knee replacement surgery. She is doing well, but the next few weeks will be difficult as she has limited mobility and is presently walking with a walker. Night time is the most difficult because it is hard for her to get into a comfortable sleeping position. Please pray for a quick and total recovery.

Bob continues to receive monthly hormone therapy injections for his prostate cancer. All indications are that the medicine appears to be working well. He will be having a CT scan some time in the summer.

It is so much easier going through these many trials knowing that so many people are lifting us up in prayer.

Serving the King of Kings,
Bob and Marianne Capehart
