Come and See India

@ComeandSeelndia

Well, it has been 9 months since we landed in India and it has been so great to see God work in our lives and the lives of our Indian friends. We have just finished our 6th month of language school and are conversing and understanding more and more in the Hindi language everyday. It has been a busy several months for us here in Delhi.

We just recently had a film crew leave after being here for almost a whole month. They were here to make 45-minute film, in order to help raise awareness for the need of the Gospel here in Northern India. I hope when the editing is finished, you will take the time to check it out. You would never be able to grasp the amount of people that have never heard of Christ here and those that have, only believe He is a God that heals and does miracles. I personally believe that the statistic that 1% are Christian here in North India, is a large overstatement. It is hard to find a "Christian" here that can tell me the true meaning of the Gospel. It is a sad situation, as well as in the rest of the world.

Das is doing great and learning a lot. I am very proud of him and thankful that God has allowed our paths to cross. I believe that God has begun answering our prayer for men to train. Das and I are praying that God would give us even more men. Das is discipling 2 young men right now and doing a great job with them. I believe you will hear great things from Das in the years to come.

**Prayer Points:**

- Language learning
- Men to Train
- Many things that will be coming to light in the next year about the future ministry here in Delhi.
- My parents are coming next week on a survey trip and will begin a ministry called Voice In The Villages. After pastoring for 25 years, he has surrendered to come help us get to Gospel out into the village areas. Please consider having him into your church to present. I am positive he would be a great blessing to you and your church. You can contact him at 864-508-0958.

The Roberts are committed to seeing a **church planting movement** in India though the **training of leaders.**
