Subject: Prayer letter

Dear Friends in Christ:

Previously, I have written to you about our grandson Stephen and his struggle with a brain tumor. I just want you to know where our family is now with the situation: St. Jude's Research Hospital has done all they can for him but they will continue to monitor his case. Doors to other opportunities for treatment have also been closed and it looks like all future treatments will be done here in Jacksonville.

It seems that the world is saying, "pray all you want but it is not going to do any good, this one is too difficult even for God". To me, this is dishonoring to God and a challenge to our faith. We know that He is sovereign and can do as He chooses and we will be satisfied with His choice but while there is time, we are asking for a MIRACLE and would ask that you pray in agreement with us.

In the meantime, life goes on and we are grateful for His blessings in our ministry. We have had two saved and every meeting seems to have His hand and blessings upon it. Of course everything in our life is different because of the situation we are going through but He is able to make that a blessing in so many ways that we are shocked.

I think all of you can understand that this is the most difficult trial that we have ever faced. Therefore, Bonnie and I have never needed or appreciated your prayers, concern and financial support more than we do today. We are extremely grateful to be a part of your life and ministry and praise the Lord that you are a big part of our life.

In Christ,

Ed and Bonnie Gibson
